

# The Cardigans, The Road

We've gone a long way  
So why don't we stay here?  
The hour is late  
And this ain't a bad place  
So why don't we stay?

The road's an old friend, we've walked it forever  
And wandered away

Away...

Got dirt in my eyes  
And ran out of water, conversations ran dry  
We got lost in the highway  
We're stuck in the north now  
So why don't we stay?

The road is my friend, but friends are forever  
And roads like to bend

Bend...

We've gone a long way...

No radio stations,  
No signal to send  
The road is my friend  
But this is the end

The end ...
