

The Cardigans, War (First Try)

Oh, come crush me now

Don't leave

no one has won this war

this time

No, don't sleep tonight

I'm hurt and ready for fire

Don't leave me up

alarmed and ready to die

chorus:

Come on, it's war, come on

come on, come on, come on

come on, it's war, come on

come on, come on, come on

this is war

Stay, I'm almost done

don't retreat

I've loaded my gun

with love, with love

Hear the dust roll over the floor

why must you sleep?

Come crush me now

I'm armed

and ready to die

[chorus]

it's war

Come crush me now

Come crush me now
