

# The Connells, Start

I hear you're waving me off  
I hear you're moving on past  
I hear you're sending me on  
At last

I hear your time has come  
I hope your time will last  
And on and on and on and on  
At last. At last.

Though I confront you I want you better  
Start

This time I won't let it be...  
Start

One thin time won't let it...  
Start

How much longer will it...  
Start

There it is again.  
I hear your time has come  
I hope you timed it last  
And on and on and on and on  
At last. At last.
