

# The Creatures, Say (radio friendly mix by Witchman)

I heard the news today  
Billy's gone away  
Left us all for good  
No one understood  
You only had to say  
I would understand  
You only had to say  
Whatever come what may

I was feeling low  
You called and you were too  
We'd meet Saturday  
It happened on Wednesday  
You only had to say  
It's sad  
I would understand  
I don't want you brave  
A truce we made today

If you're feeling sad  
On me you can depend  
You only have to say
