## The Creatures, Say (radio friendly mix by Witchm

I heard the news today
Billy's gone away
Left us all for good
No one understood
You only had to say
I would understand
You only had to say
Whatever come what may

I was feeling low You called and you were too We'd meet Saturday It happened on Wednesday You only had to say It's sad I would understand I don't want you brave A truce we made today

If you're feeling sad On me you can depend You only have to say
