

# The Cure, See The Children

I stopped the car  
The other day  
I had to ask a little  
Girl the way  
I thought she'd show me better  
If she got inside  
And once inside  
I thought I'd take her  
For a little ride...  
So I see the children  
Feel the children  
See the children  
Feel the children  
All the time...  
See the children  
Feel the children  
See the children  
Feel the children  
All the time...  
I'm a supermarket Santa  
Underneath the Christmas tree  
The little one all like to  
Come and sit upon my knee  
I have to hold them tightly  
'Cause they fall to the floor  
A little concern  
It's not against the law...  
So I see the children  
Feel the children  
See the children  
Feel the children  
All the time  
See the children on the (?)  
I can't see the children  
All the time  
I pass by the infant school  
Every single day  
I push sweeties through the fence  
But the kids just run way  
I only want to talk with them  
And join in their fun  
But all the little children do  
Is run run run run run...  
See the children  
Feel the children  
All the time...  
See the children  
Feel the children  
See the children  
Feel the children  
All the time...
