

# The Dingeers, Another Burnin' City

Up in the house on top of the hill  
You look around and the scene surreal  
There ain't a cop out on the corner  
There isn't a need the program is over

Now they got us conducting their conditions  
Can't speak out or cause opposition  
Don't fly off the handle 'cause majority rules  
The less that you push the more they can pull

Information on the tube  
It's all you need to know  
Don't let 'em teach or try and stretch you  
'cause you'll break the mold if you start to grow

You'll be content in a burning city  
Watch it go down in flames  
You lie dead in a burning city  
'cause you thought it okay  
To live your life this way
