The Drums, I Don't Want To Go Alone

The dream you told me Well I usually get bored But this one I can't ignore And oh If I was on my death bed Well, would you leave me Walk out the door

I don't want to go alone /2x

I guess if I think about it I've had the same fear all my life And loving you can take Won't make anything different in my world

I don't want to go alone /2x
