

The Echoing Green, The Power Cosmic

CHORUS

I've seen the nightfall turn to day
With every single word You say
An element of light I long to share
Something cosmic's in the air

CHORUS

There's a kind of mystery
When the dark recites its elegy
It's Heavenly
And I believe it

When the morning comes to be
The sun restores my hope to me
Of eternity
And I receive it

CHORUS

Uh-huh, uh-huh
Uh-huh, uh-huh
Uh-huh, uh-huh
Uh-huh, uh-huh

CHORUS

I saw a stone get rolled away
When the Sun came up today
An element of light I long to share
Something cosmic's in the air
