The Faders, Whatever it takes

I've been lying here for like a million years in my bed

Get up get up get up

All the time I can hear you talking in my head

Shut up shut up shut up

Everybody says I should be moving on

Everybody knows I'm still waiting

I don't care whatever it takes to be with you

Your under my skin and no matter what I do

I'm nothing without you so I'll do whatever it takes

I've been thinking about how we could have done things differently

Give up give up give up

Yesterday I could have sworn I heard you calling me

Wake up wake up

Everybody says baby life goes on

Everybody knows I'm stiil waiting

I don't care whatever it takes to be with you

Your under my skin and no matter what I do

I'm nothing without you so I'll do whatever it takes

I'll do whatever it takes

Nothing will stand in my way

We had it good

I want it back

I know your feeling the same

And I'll do whatever it takes

I don't care whatever it takes to be with you

Your under my skin and no matter what I do

I'm nothing without

I have to be with you

So I'll do whatever it takes
