

The Fall, In These Times

A flat season - vision gone
Picture frame it, and say so long;
My Aqua-cat is where it's at and new to mammal range
Buy you know it would never suit, territories Alpine

In These TIMES - Meeowww
In These Times - Fishcat Mother
In This Time - Spectral Filter
In These Times - A Feline Nutter

In these times;

A Man down South, he did go out and he did kill fifteen
What the papers could not grasp or work out, was his life
in a Flea brain;

In These Times - Universal Tepid
In These Times - Stagnant Mind
In This Time - And in these times
These Times - They're both the same

Diluted Jesuits pour out of mutual walkmans
From Elland Road to Venice Pensions and down
the Autobahns;

In This Time - If That's it I'm leaving
In These Times - Leave this planet fast
In These Times - It affects my sleeping
In This Time - My dreams are one to miss
Ones to be avoiding
In times like this

I often hope in days ahead my gossamer front gates,
will keep out the trash in which my psychic streets' emershed;

In These Times - Spectral Filter
In These Times - In Your Midst
In These Times - This song's a belter
In This Time - For times like this

In These Times - I picture framed pre-teen rap gangs,
with alsatians, Scapa flow steel became
inexpensive

A first season - vision gone
Picture frame it - and say so long
They say 'Give up Buster' - Cram it down
But I grow stronger, and break their Midszzzzzzzz
