The Flying Tigers, Detonate

Bore me out with your new drill I'm feeling hollow now
Capable of anything
I'm not rational
Build me up when I'm down here
Show me how you care
Get the message once again
And fall away, fall away

Yeah here I go again I'm going off the deep end

When you find me lying here And I'm clinging to the fuse Don't try to stop me cuz There's nothing you can do

Feels so good when I'm sober Nothing phases me Until the darker side of me Comes alive, comes alive

Yeah here I go again I'm going off the deep end

When you find me lying here And I'm clinging to the fuse Don't try and stop me cuz There's nothing you can do Except watch me detonate Then you'll see inside of me All those things that I Never want to be

And the message is Just don't wait for me Cuz I can't change

Yeah here I go again I'm going off the deep end

When you find me lying here And I'm clinging to the fuse Don't try and stop me cuz There's nothing you can do Except watch me detonate Then you'll see inside of me All those things that I Never want to be

And the message is Just don't wait for me Cuz I can't change
