

The Gathering, When You Sleep

So patiently they wait
For the given birth date
While buying clothes and dippers
Through modern technology
They watch so carefully
The growing little fingers
Good night miracle of love
Sleep tight, I'll sing
You're a lullaby
After nine months in the womb
You were finally born in June
A new member in the family
At the fire they sit
You're lying in the cribb
Rocked by mom and daddy
Good night miracle of love
Sleep tight, I'll sing
You're a lullaby
'Cause when you sleep
You look like an angel
You look like an angel to me
Oh when you sleep
You look like an angel
You look like an angel to me
A fever since yesterday
New teeth are on their way
The growing pains have started
Every minute that you live
Is a miracle God gives
The heavens are delighted
Good night miracle of love
Sleep tight, I'll
Sing you a lullaby
Oh when you sleep
You look like an angel
You look like an angel to me
Oh when you sleep
You look like an angel
You look like an angel to me
Oh when you sleep
Our hardened hearts
Melted like wax
The day you came into our lives
Enchanted by your laughing cracks
And very soon you'll be baptised
Miracle of love, sleep tight
I'll sing you a lullaby
'Cause when you sleep
You look like an angel
You look like an angel to me
Oh when you sleep
you look like an angel
You look like an angel to me
Oh when you sleep
