

# The Go Set, Breakdown

I feel the need to get away, and find a code into the sun  
The people that were turned away, have nowhere left to run  
Its a polarised and subsidised government decision  
Come and join us now boy be amongst the winners  
The circle is a showdown, epicentre for the fiction  
and the policies are for you, if you will be with us  
They know what to say when, they know what to say now,  
They know what to say, when they're falling down  
We're heading for a breakdown, we're heading for a fall  
A government shakedown, that's heading to the wall  
To find today in sorrowed state, and a past that's given way,  
To a rationale economy, with a lock above the gate  
Its a polarised and subsidised government decision  
Come and join us now boy be amongst the winners  
The circle is a showdown, epicentre for the fiction  
and the policies are for you, if you will be with us  
They know what to say when, they know what to say now,  
They know what to say, when they're falling down  
We're heading for a breakdown, we're heading for a fall  
A government shakedown, that's heading to the wall  
Breakdown, shakedown, comedown, fall down
