

The Goodnight, Back to life

I'm never changing
the look on my face 'cuz I came on a mission
I'm here on business
you see, nothing phases me
I am the shell of a human
A noose on my neck, I was dead when I walked in
I once felt satisfied, but then

Everything changed
I'm on a new page every day
Everything rearranged
and took us to a new place
What I need most is a miracle
It seems to me we don't live like we're alive
Bring me back to life

I held my head high
Said my goodbyes let me wet clothes air dry
Under the moonlight
It seemed it was make believe
The dream became a nightmare
I used to see love in her eyes now it's not there
My spirits once were high, but then

Everything changed
I'm on a new page every day
Everything rearranged
And took us to a new place
What I need most is a miracle
It seems to me we don't live like we're alive
So I've been living like I've been given one final night
Bring me back to life
