

# The Hellcopters, Hey!

You say you wanna help me out  
But you just fill my head with doubt  
I got my own reality and it  
Sure ain't virtual  
It's my highway  
And I choose my lane  
And I control the cruise  
Yeah I got feelings but bet your ass  
They're not mutual

So what gives what will you do  
All them things you feel  
You have to prove  
Like what's the big deal  
And what's so god damn crucial
