The Hooters, Don't Take My Car Out Tonight

Don't take my car out tonight
Engine's runnig hot, I'm running back to you
Caught up in your trap and the secret things you do
Headlight flashes bright, do you remember when
We used to drive all night, well I'm coming back again
Chorus:
You told me we live in the shadows
You told me to hide from the light
But the last thing you said keeps running through my head
Just don't take my car out tonight
Somewhere there's a place, a road with out a sign
I'm standing at the gate in a dream from out of time
Your body brushes mine, I try to catch my breath
You whisper in my ear, there's danger up ahead
Chorus
Headlight flashes bright, I watch you drive away
The things we always feel are the things we never say
My engines running hot, gotta keep on pushing through
I'm burning up inside, I'm burning up for you
Chorus
