

# The Human League, Jam

Starting over  
To feel the way I do  
A sudden stranger  
To everything I knew  
All the years together  
Now the days we are apart  
New experiences  
New sensation for the heart

But you know that you will go back  
Where you used to

Jam  
Got to get some jam  
Jam  
Got to get some

To be alone was frightening  
But I knew I had to stay  
'Til all the dreamers came  
To take my loneliness away

But you know that you will go back  
Where you used to

Jam  
Got to get some jam  
Jam  
You've got to get some

If all our life is dancing  
Then let's just let the music play  
What good is crying?  
I'm going to jam my life away

But you know that you will go back  
Where you used to  
Jam  
Where you used to

Jam  
Jam  
Jam  
Jam

Starting over  
To feel the way I do  
A sudden stranger  
To everything I knew

But you know that you will go back  
Where you used to  
But you know that you will go back  
Where you used to

Jam  
Got to get some jam

Jam  
Got to get some

Jam  
Got to get some jam  
Jam

Got to get some
