

The Kelly Family, Make a song with me

Make a song and make it better,
Dance the world around it's better
Make a song with me,
Sing this song with me.
Take your life and make it better,
In this world it is a part of better
Let your soul not freeze,
Leave your soul to sing
Let your soul just sing
Don't let it go, don't let it go,
I don't know what I mean, I don't know,
If you can see what I mean.
Try one again, try it with me
I only know this world, to be free
I only know how it's worth to be free
Make a song...
Take your life...
Leave your soul to sing
And when you're down, down to the ground,
We will be around, who is your friends
And clear we'll be around who is your friends
Start once again, start with old strength,
Follow the road, till the end of day,
And follow that road, till the end of day
Let's go
Make a song...
Take your life...
Leave your soul to sing
Winning this life, win every point,
Make day by day, day by day, as you go
Make day by day, day by day and go
And when you're up, as number one,
Don't forget those days your friends
Don't forget those days and your friends
Make a song... (2x)
Take your life...
Make a song...
La la la la...
