

# The Kid LAROI, WHAT JUST HAPPENED

I don't know if we just crossed the line  
'Cause I don't even know what just happened  
Everything I said last night was lies  
'Cause I don't even know what just happened

Two beans, one blunt and a double cup  
Then you walked in, I'm in trouble now  
I said some things about you and us  
I said some things that you shouldn't trust  
Yeah, we both know you don't give a fuck  
Friends with my girl, but you wanna fuck  
What's your excuse? I'ma blame the drugs  
I care, I care, I don't care enough

Stop it, but you won't, won't, won't  
Love it, 'cause you're cold, cold  
And you don't like bein' 'lone, lonely  
You knew what you were doing, you were dead wrong

I don't know if we just crossed the line  
'Cause I don't even know what just happened  
Everything I said last night was lies  
'Cause I don't even know what just happened

Ooh-ooh-ooh-ooh-ooh  
Ooh-ooh-ooh-ooh-ooh  
Ooh-ooh-ooh-ooh-ooh  
'Cause I don't even know what just happened

Lost in a dark place  
And I called when I was wasted, and what did I say to you?  
Uh, all I remember was how the liquor tasted  
Then I woke up in my bed tryna retrace it  
Tell me, we just talked 'til it's late in the mornin'  
I got missed calls, if you rang, I ignored it  
I told myself that I did what I was supposed to  
'Cause it'll only be you that knows the whole truth

Stop it, but you won't, won't, won't  
Love it, 'cause you're cold, cold  
And you don't like bein' 'lone, lonely  
You knew what you were doing, you were dead wrong

I don't know if we just crossed the line  
'Cause I don't even know what just happened  
Everything I said last night was lies  
'Cause I don't even know what just happened

Ooh-ooh-ooh-ooh-ooh  
Ooh-ooh-ooh-ooh-ooh  
Ooh-ooh-ooh-ooh-ooh  
'Cause I don't even know what just happened
