The Kingston Trio, Interchangable Love

You love me for lovin' you, You are you because I do. I love you for lovin' me And I am me because you do. So much with us in love are we: I could be you and you could be me.

You kiss me for kissin' you, You are you because I do. I kiss you for kissin' me And I am me because you do. So much in love with us are we: You kiss you and I kiss me.
