

# The Kinks, Moments

Come on love

Let's forget about all the things that we've done wrong

Just remember all of the things that we've done right

I'm in no mood to argue and I'm in no mood to fight

So let the tears pass you by

Don't you cry, don't you cry, don't you cry

And I ain't gonna let this big world get me down

I gotta learn to keep a hold of my head and keep my feet on the ground

Moments of ecstatic happiness

And the moments of stress that we had better forget

But love, I gotta feeling that I've said it all before

I said it before

I say I'll never do you wrong but then I go and do the same again

I don't know why, don't know why

Don't know why, don't know why, don't know why

We gotta learn to share these moments in our lives

And never let it get us down, we gotta put up a fight

Moments to remember all our lives

From the first brief hello to the last good-bye

I say I'll never do you wrong but then I go and do the same again

I don't know why, don't know why

Don't know why, don't know why, don't know why

We gotta learn to share these moments in our lives

And never let it get us down, we gotta put up a fight

Moments to remember all our lives

From the first brief hello to the last good-bye
