

# The Mavericks, Dream River

(Raul Malo, Evan York)

Floating down the dream river,  
With the moon and stars above,  
Maybe they can help me find a way  
To have your whole love

Sleeping in the darkest room  
Dreaming you are in my arms  
Oh how I wish my dream comes true  
With all my heart

Don't want this night to end  
Don't want to live without you

Floating down the dream river  
With you by my side  
I know it's make-believe  
But please don't wake me  
I don't mind

(Whistles melody)

Don't want this night to end  
Don't want to live without you

Floating down the dream river  
With you by my side  
I know it's make-believe  
But please don't wake me  
I don't mind  
I know it's make-believe  
But please don't wake me  
I don't mind.
