

The Moffatts, Who Do You Love

Here we are
you'd tell me i'm the only one
that makes you feel love again
there you go
i see you're watching him
when you don't think i know
should i let you go?

So who's it gonna be?
is it him or me?

Reff:

Who do you love?
who do you need?
you're messing up my mind
wasting all my time
who do you love?
what do you feel?
stop playing with my heart
you're tearing me apart
am i the one who can make you fly up above?
is it me who can take you higher than you're dreaming of?
now who do you love?

turn around
do you really think you'd play me like a fool for you
then i realize
when you touch me it's like nothing i have known
could i let you go?
