

# The Moody Blues, Swallow

Time goes by  
Seems like the blink of an eye  
It's so crazy  
What can we do

It's so strange  
Life in the really slow lane  
Take it easy  
That's what we'll do  
Just me and you

In the wide outside  
See the swallow as he glides  
Like a spiral up to freedom

We're all right  
Maybe get lucky tonight  
Only lovers feel like we do

We take our time  
Leave all our worries behind  
No more mind games  
Simple and true  
That's what we'll do

In the wide outside  
See the swallow as he glides  
Like a spiral up to freedom

Time goes by  
Seems like the blink of an eye  
It's so crazy  
What can we do

It's so strange  
Life in the really slow lane  
Take it easy  
That's what we'll do  
Just me and you  
That's what we'll do  
Just me and you  
That's what we'll do
