

# The Movement, Wasted Youth

All the crap all the lies that they telling you  
And all the things that you don't really wanna do  
You're pushed in to it man you wanna quit

Loneliness' don't really mean a thing  
We leaned to live with it we got it under our skin  
If that's the way then you never win

And all my wasted youth  
Emotionally crippled under the laws of hypocrite's  
They proved it all by giving us nothing

That doesn't make it right  
That doesn't make it fucking right

But then again we got a government  
I'm not ashamed to say its not another friend  
That is away of oppression you

All the crap all the lies that they telling you  
And all the things that you don't really wanna do  
You're pushed in to it man you wanna quit

And all my wasted youth  
Emotionally crippled under the laws of hypocrite's  
They proved it all by giving us nothing

That doesn't make it right  
That doesn't make it fucking right  
Lack of morality police brutality  
Aggression pointed at our youth
