

The National, Dark Side of the Gym

the first time I saw you
you were walking out
I wanted to ask if you could stay
but you were on something with your friends around
there was nothing I could say

but I'm gonna keep you in love me for a while
I'm gonna keep you in love in me

the next time I saw you
you're breaking down
a million years had gone away
looked right at me
I just turned around
there was still nothing I could say

but I'm gonna keep you in love me for a while
I'm gonna keep you in love in
I'm gonna keep you in love me for a while
I'm gonna keep you in love in

I have dreams of anonymous castrati
singing to us from the trees
I have dreams of a first man and a first lady
singing to us from the sea

So I'm gonna keep you in love me for a while
I'm gonna keep you in love in
I'm gonna keep you in love me for a while
I'm gonna keep you in love in

I have dreams of anonymous castrati
singing to us from the trees
I have dreams of a first man and a first lady
singing to us from the sea
