

# The Operation M.D., Sayonara

She was another one,  
She came from Tokyo,  
Another night, another after show, where,  
She knew here way around,  
She spoke the native tongue and I bought it all because I was so young  
And I fell into the hole she made,  
I begged and begged for her to stay,  
But she had plans with many other bands, and other dumb Americans  
She said sayonara, she said see ya later, she said I dont wanna, it made me wanna die  
She said I dont wanna, she said see yea later, she said sayonara, it made me wanna cry  
I tried to write a letter,  
I never could forget her and every page was filled with rage ya.  
I let her know my feelings, she had no way of knowing I was already on that plane.  
So I fell into my own crash, I landed on my own dumb ass,  
When I showed up to find her with another dumb Americans  
She said sayonara, she said see ya later, she said I dont wanna, it made me wanna die  
She said I dont wanna, she said see yea later, she said sayonara, it made me wanna cry  
Ya I remember that girl. Sounds like she got you to huh, oh man  
She was the only one, I was the lonely one, another dumb American  
She was the only one, I was the lonely one, another dumb American  
I fell into the hole she made,  
I begged and begged for her to stay,  
But she had plans with many other bands and other dumb Americans  
She said sayonara, she said see ya later, she said I dont wanna, it made me wanna die  
She said I dont wanna, she said see yea later, she said sayonara, it made me wanna cry  
She said sayonara, she said see ya later, she said I dont wanna, it made me wanna die  
She said I dont wanna, she said see yea later, she said sayonara, it made me wanna cry
