

The Radios, Walking The Thin Line

There's something going on in the air
How can I tell you, how would I dare
This feeling's getting stronger
Stronger and stronger
What should I say what should I do
No way to hide, this feeling so true
I'll ask to stop the presses
Tell'm I want you need you

Walking the thin line
Between colors in our head
Cheerless or bright
Walk on sunshine
Till the rain will make us wet
I'll be by your side

My weary moods my troubles are gone
No one can do what cupid has done
He sold his bow and arrow
He bought a real big shotgun

Walking the thin line
Between colors in our head
Cheerless or bright
Walk on sunshine
Till the rain will make us wet
I'll be by your side

I know I can do it
There's nothing to it
If you don't like it i'll set you free
It might sound funny
Might take money
But 'ill make you move over honey

Walk on sunshine
Till the heat will make us sweat
I'll be by your side

Walking the thin line
Between colors in our head
Cheerless or bright
Walk on sunshine
Till the rain will make us wet
I'll be by your side
