

# The Ramones, Danger Zone

New York is a real cool town Society really  
Brings me down Our playground is a pharmacy  
Kids find trouble so easily

Other countries are just so bad The Soviets really  
Make me mad on the boulevard where the police hide  
Let's steal a car for a joyride

They say you're just an awkward kid  
You flipped your lid you flipped your lid  
You love wine like they love cash  
Feel your rage spread like a rash

You flipped your lid You flipped your lid  
You flipped your lid You flipped your lid  
They say you're just an awkward kid  
You flipped your lid You flipped your lid

All alone in the danger zone danger zone danger zone  
All alone in the danger zone danger zone danger zone
