

The Spinto Band, Spy Vs. Spy

I'm alone at night and I just wanna hold you tight,
But you're away from me,
And I'm alone most days see things I wonder what you'd say if you'd agree with me,
If you'd agree with me,
Give my hand a squeeze and tell me that you'll never leave,

I'd love to give you everything I own and make,
And I'd love to tell you everything I know but its not right,

And I've been out all night I've been to places you and I would normally laugh about,
But I was so polite and I just pretended to like it as I danced around,
As I danced around,
But if its not them they're grabbing that would make me wanna shout,

I'd love to give you everything I own oh baby,
And I'd love to tell you,
Everything I know and say its alright,
Its alright,
Its alright,
That we're alright,

And I cant sleep without no one else but you so dont let me leave me when I say our love is true and

I'd love to give you everything I own oh baby,
And I'd love to tell you,
everything I know and say its alright,
Its alright,
Its alright,
We're alright,
We're alright
