

The Starting Line, I Could Be Wrong

I sleep too well living this way,
because I live so well everyone should be re-paid.
From all the east coast to west coast states,
from the Atlantic banks to the San Francisco bay.
But I'm really not too sure how this came to happen,
but I know that I'm not so concerned.

Because all I wanted was all I could take,
and some stood up while the others had to wait.
I took my turn and I will state my case but I could be wrong

From all the east coast to west coast states,
I wanna feel the warmth from the buzz that I create.
But I'm really not too sure if it's ever gonna happen,
but I know that I'm not too concerned.

Because all I wanted was all I could take,
and some stood up while the others had to wait.
I took my turn and I will state my case but I could be wrong

I could be wrong, yeah I could be wrong.

Because all I wanted was all I could take,
and some stood up while the others had to wait.
I took my turn and I will state my case but I could be wrong
