

# The Swellers, Making Waves

I still think it's amazing  
how much baggage I take in.  
I used to let things slide.  
Now I'm sick, it's contagious.  
Write that shit then erase it.  
I'm on the other side of enemy lines.  
So thanks a lot.

I'm making waves, and you're not.  
I'm done taking bad advice if that's fine by you.  
I hate being so well versed.  
Hard getting to the chorus.  
Remember that bridge we burned?

I still have trouble getting over it.  
Now I see it so clearly.  
Everyone who is near me,  
they're showing the simple signs  
of the acquaintance kind.  
It's not like true friends are so hard to find.  
Now I can't stand a single word you say.  
So if the world ends tonight, we're better off that way.  
You talk shit a lot

'cause I'm making waves and you're not.  
I'm done taking bad advice if that's fine by you.
