## The Swellers, Making Waves

I still think it's amazing how much baggage I take in. I used to let things slide. Now I'm sick, it's contagious. Write that shit then erase it. I'm on the other side of enemy lines. So thanks a lot.

I'm making waves, and you're not. I'm done taking bad advice if that's fine by you. I hate being so well versed. Hard getting to the chorus. Remember that bridge we burned?

I still have trouble getting over it.

Now I see it so clearly.

Everyone who is near me,
they're showing the simple signs
of the acquaintance kind.

It's not like true friends are so hard to find.

Now I can't stand a single word you say.

So if the world ends tonight, we're better off that way.
You talk shit a lot

'cause I'm making waves and you're not. I'm done taking bad advice if that's fine by you.
