The Temptations, Firefly

Firefly, Firefly
Shine your light tonight
Assist the Moon and Stars
In helping us
To ease our troubled minds

Firefly, Firefly Golden night of serenity, yeah show us the light naturally. And maybe she wont worry when there aint nothing I can do.

When sea runs dry and the stars fall from the sky She a vulnerable flower and she believes in me

Even when I had to lie I shouldn't have lie To make the world feel alright Firefly, Firefly

(Spoken)Um,Um,Um, Sometimes I feel I have the weight of the world on my shoulders. But knowing the strength she sees in me I smile because she believes me.

Firefly, Firefly Golden night of serenity show me the light naturally. And maybe she wont worry when aint nothing I can do.

When sea runs dry and the stars fall from the sky She a vulnerable flower and she believes in me

Even when I had to lie
I shouldn't have lie
To make the world feel alright
Firefly, Firefly

Ooh, Ooh, Ooh, Firefly You make the world feel alright
