## THE VAMPS, Better

We fell in Now w're fallin apart But do you even notice You're sleeping whie w're fallin apart going through the montions

so tell me
did things get bettre
or did we get used to it
tell me how did we get here
so much space in this bed
did we learn to make a little
feel like all that we could give
we can do better
yeah, we can do better than this

i won't settle for less than best i say it so don't forget i won't settle for less than best i say it so don't forget and we can do better than this

i bite my tongue then istart to scream it but does it make a difference at all cos we should be lovers if there's a spark we shuld recover all that we lost cos it's too good to let it go

so tell me did things get bettre or did we get used to it tell me how did we get here so much space in this bed did we learn to make a little feel like all that we could give we can do better yeah, we can do better than this

i won't settle for less than best i say it so don't forget i won't settle for less than best i say it so don't forget and we can do better than this
