

The Verve, See You In The Next One

How hard is it for me to wait for you
See you in the next one have a good time
Could be a lifetime before I see you again
See you in the next one have a good time

Eyes they open wide
Eyes they open wide
I like the way
It was hate the way it is now

Lack of time and a wasted week end
You wore your lies like a filmstar

Eyes they open wide
Eyes they open wide
I like the way it was
Hate the way it is now
