

The Wilkinsons, Shine Something Down

(Skip Ewing/Jame Dean Hicks)

Maybe this is
Where I should be
But all alone
In the middle of life
Doesn't feel right to me
I need something
to excite me
Love and ignite me
Here in the dark
Some answer
To the silence
And a little bit
Of guidance
If it's only a spark

Shine something down
It doesn't have to be the sun
Just a little bit of light
To light the way
(And) Turn me around
Lead me to
The right someone
Show me
What I haven't done
I'm ready to be found
Shine something down

Maybe this
Is what I deserve
Maybe all these
Feelings I'm voicing
Just go unheard
But I don't believe that
I believe that
Somewhere out there
There's another
Heart beating
And another
Soul needing
The answer to a prayer

Shine something down
It doesn't have to be the sun
Just a little bit of light
To light the way
(And) Turn me around
Lead me to
The right someone
Show me
What I haven't done
I'm ready to be found
Shine something down

Just one small ray of hope
Straight into my heart
And my soul
Shine something down
