

The XCERTS, GIMME

Gimme like something like whatever cool
I never feel it when I'm talking to you
Gimme like something like whatever cool
I never feel it when I'm talking to you

Bow down to the master
Bow down to your king
Bow down to oblivion
Bow down to whatever you're thinking

I tried your drug once before
Now I'm on my knees begging for more
I tried your drug once before
Now I'm on my knees begging for more

Gimme like something like whatever cool
I never feel it when I'm talking to you
Gimme like something like whatever cool
I never feel it when I'm talking to you

Bow down to your girlfriend
Bow down to her skin
Bow down to the other girl
Bow down to whatever you're drinking

I tried your drug once before
Now I'm on my knees begging for more
I tried your drug once before
Now I'm on my knees begging for more

Gimme like something like whatever cool
I never feel it when I'm talking to you
Gimme like something like whatever cool
I never feel it when I'm talking to you
