

The Youngbloods, Merry-Go-Round

Systematic psychedelic metamorphic education
Down with marriage bottled babies fun the bath-in generation
A nightmare to the ones who came before
Peeking through a hole in the futuristic door
And the merry-go-round goes around
The old yellow leaves keep falling to the ground
The world has been turned upside down
We are making a new sound

Lollipops and revelation nothing till the time demotion
Blinking lights and blowing minds and played with everything emotion
Teach out grab the stars and try to find a way
Make yourself a place in the up-and-coming day
And the merry-go-round goes around
The old yellow leaves keep falling to the ground
The world has been turned upside down
We are making a new sound

A nightmare to the ones who came before
Peeking through a hole in the futuristic door
And the merry-go-round goes around
The old yellow leaves keep falling to the ground
The world has been turned upside down
We are making a new sound

The world has been turned upside down
We are making a new sound

The world has been turned upside down
We are making a new sound
