

# Third Moon, Moonlight

Lost in tears beyond tears  
Frozen weeps rain in mournful clouds  
Clandestine scars; the picture that bleed in me  
Delirious equilibrium of abandon seas  
Oh caressing grace, come forth into me  
enshrine my marbled heart  
Snow that bleed the enlightened symbols  
Moon! Oh hear my call  
Firmamental ruins, enshrined by the shimmering moonlight  
Dancing across silent silver waves  
over forsaken whispering angels remains  
and beneath the sweet caress of dreaming shadows  
Mourn sprout up to monumental pain  
Flowing cascades of silver scars  
shall wipe away all my tears  
mesmerized by the darken moonlight
