

Thousand Foot Krutch, War of Change

It's a truth that in love and war
World's collide and hearts get broken
I want to live like I know I'm dying
Take up my cross not be afraid

Is it true what they say
That words are weapons?
And if it is, then
Everybody best stop steppin'
Cause I got ten in my pocket
That'll bend ya locket
I'm tired of all these rockers
Saying come with me

Wait,
It's just about to break
It's more than I can take
Everything's about to change
I feel it in my veins
It's not going away
Everything's about to change

It creeps in like a thief in the night
Without a sign, without a warning
But we are ready and prepared to fight
Raise up your swords, don't be afraid

Is it true what they say
That words are weapons?
And if it is, then
Everybody best stop steppin'
Cause I got ten in my pocket
That'll bend ya locket
I'm tired of all these rockers
Saying come with me

Wait,
It's just about to break
It's more than I can take
Everything's about to change
I feel it in my veins
It's not going away
Everything's about to change

This is a warning, like it or not
I break down, like a record spinning gotta get up
So back off,
This is a warning, like it or not
I'm tired of listenin' I'm warning you, don't try to get up

There's a war going on inside of me tonight (don't be afraid) /2x

Wait,
It's just about to break
It's more than I can take
Everything's about to change
I feel it in my veins
It's not going away
Everything's about to change

It's just about to break
It's more than I can take
Everything's about to change

I feel it in my veins
It's not going away
Everything's about to change
