

Tiesto & Wolfgang Gartner, We Own The Night

We're burning with the stars
We shine so bright like Jupiter and Mars
We own the night keep running with the fires
This time is ours
We're dancing through the clouds
We own the night!

Something in the air makes me feel so good tonight
Release the energy and take it for a ride
Make it to a run speed, push it to the edge
I am supernova and tonight
I wanna forget!

If it feels good, do it
Wanna fall off and do it
Put your body into it
We own the night, night, night!

We're burning with the stars
We shine so bright like Jupiter and Mars
We own the night keep running with the fires
This time is ours
We're dancing through the clouds
We own the night!

Shining with desire /5x
