

# Tiffany Giardina, This Is My Life

Slow down, what's the big hurry?  
When did you forget? and life became a worry  
All I want to do  
Is lay down in the grass  
And stare up at the stars  
Instead of growing up too fast  
Oh, oh  
I'm taking time to feel the sunshine  
Find out  
Who I am and in my own time  
From where I stand it's quite a view  
Every day's brand new  
This is my life, this is my life  
Show time, don't you know the world's a stage  
Cause we're not, just stories on a page  
I'm gonna have some fun  
Let my light shine bright  
I'm gonna be the one  
Trust myself and be all right  
Oh, oh  
I'm taking time to feel the sunshine  
Find out  
Who I am and in my own time  
From where I stand it's quite a view  
Every day's brand new  
This is my life, this is my life  
Everybody's chasing something  
Trying to hold on to the dream  
Looking in the wrong direction  
Missing what they really mean  
Oh, oh, oh  
Oh, oh  
I'm taking time to feel the sunshine  
Find out  
Who I am and in my own time  
From where I stand it's quite a view  
Every day's brand new  
This is my life  
Oh, oh  
This is my life  
Oh, oh  
This is my life  
Oh, oh  
This is my life  
Oh, oh  
This is my life  
Oh, oh  
This is my life
