

TIJANA DAPCEVIC, TO THE SKY (MACEDONIA)

I had a feeling that I wanna go loud
Make my move and let it all get out
I got a feeling that I wanna go wild
Take my hand, Baby I got all night
Take me now, you know I want you
Hold me now, cause I can't stop it
Take me up where we can do this to the stars tonight

Why don't we go now to the sky
You and I beautiful
Where do we go now to the stars
Shine so bright into the sky

Where do we go now?

I had a feeling that I need you all time
You make me free and that is why you're all mine
I got a feeling that we both could shine
Held together by the hand of life

Take me now you know I want you
Hold me now 'cause I can't stop it
Take me up where we can do this to the stars tonight

Why don't we go now to the sky
You and I beautiful
Where do we go now to the stars
Shine so bright into the sky

No, I don't wanna live without you for another day
And if I've said it twice it means that you will have to stay
You better hold me dance me sway like this forever
Take me dancing tonight

Take me now, you know I want you
Hold me now cause I can't stop it

(Baby where do we go?)

Where do we go now, to the sky, you and I beautiful
Where do we go now, to the stars, shine so bright into the sky
Where do we go now, to the stars, shine so bright into the sky

Where do we go now?
