

# Tim Burgess, We All Need Love

Teach me how to live  
Teach me how to live without  
There's only one thing I can't do without  
Look at You and me now

Teach me how to live  
I will teach you how to laugh  
It's so very sad when people drift apart  
And how they sometimes break your heart

We all need love  
You and I  
Whisper one sweet love  
There will shine  
I need to spend some time with you my love  
I can't go on  
I have to go on

Show me how to live  
Show me how to live without  
There's only one thing I believe I belong to  
Look at you and me now

Teach me how to live  
I will teach you how to laugh  
It's so very sad when people drift apart  
And how they sometimes break your heart

We all need love  
You and I  
Whisper one sweet love  
There will shine  
I need to spend some time with you my love  
I can't go on  
I have to go on

(trumpet solo)

We all need love  
You and I  
Whisper one sweet love  
There will shine  
I need to spend some time with you my love  
I can't go on  
I have to go on
