

Timmy Trumpet, Turn The Lights Down Low (feat

Turn the lights down low
Just before you go
So I don't need to see
When you're leaving me
Turn the lights down low
Just before you go
'Cause I can't take the pain
When you walk away

Turn off the lights
Don't wake me up before you go
Turn off the lights
Let me dream a little more
Leave me in the dark
So I don't know
Turn the lights down low

Turn the lights down low
Just before you go
So I don't need to see
When you're leaving me
Turn the lights down low
Just before you go
'Cause I can't take the pain
When you walk away

Turn off the lights
Don't wake me up before you go
Turn off the lights
Let me dream a little more
Leave me in the dark
So I don't know
Turn the lights down low

Turn the lights down low
Just before you go
So I don't need to see
When you're leaving me
Turn the lights down low
Just before you go
'Cause I can't take the pain
When you walk away

Turn off the lights
Don't wake me up before you go
Turn off the lights
Let me dream a little more
Leave me in the dark so I don't know
Turn the lights down low

Turn the lights down low
Just before you go
So I don't need to see
When you're leaving me
Turn the lights down low
Just before you go
'Cause I can't take the pain
When you walk away

Turn off the lights
Don't wake me up before you go
Turn off the lights
Let me dream a little more
Leave me in the dark so I don't know

Turn the lights down low
