

Timothy B. Schmit, Hold Me In Your Heart

(t. b. schmit/w. jennings/b. gaitsch)

I will live just as long as you want me
In your arms where no bad dreams haunt me
I can live just as long as you're there
And you care--i feel it everywhere

In a world that I never will understand
All I know is we're all just passing by
In your arms is the one place that I'm not afraid
Of dying...

Hold me in you
Hold me in your heart
Hold me in you
Hold me in your heart

In a time when it's all so confusing
We can win and it feels like losing
Try to love...we don't know...what is love?
Try to live and don't know life at all

There are nights that I never think I'll live through
There are days I don't know what I'll do
I keep on for your love makes me want to live
One more moment

Hold me in you
Hold me in your heart
Hold me in you
Hold me in your heart

Deep in the midnight you are there to hear my cries
You are the good light shining 'til the darkness dies
Long as we're together
I'll keep on forever

Hold me in you
Hold me in your heart
Hold me in you
Hold me in your heart
