

# Tinashe, MAKJ, Save Room For Us

heart goes numb when the days turn to weeks  
only blank shadows of the way we used to be  
all these times zones between us have grown  
they've grown  
but these nights don't get easier  
when I see ya her

just save room for us  
just save room for us somewhere  
just save room for us  
I trust you'll come back for us, somebody  
you know it's not the end  
we'll fall in love again  
cause we were built in dreams of gold  
just save room for us  
and it may not be today  
true love will find a way  
just save a space for me

and I know you've moved on  
she will never love you  
the way that I do  
now I am dancing solo  
slowly disappearing  
it still hurts when I see you whit her

just save room for us  
just save room for us somewhere  
just save room for us  
I trust you'll come back for us, somebody  
just save room for us,

and I know you've moved on  
she will never love you  
the way that I do  
now I am dancing solo  
slowly disappearing  
it still hurts when I see you whit her

just save room for us  
just save room for us somewhere  
just save room for us  
I trust you'll come back for us, somebody  
you know it's not the end  
we'll fall in love again  
cause we were built in dreams of gold  
just save room for us  
and it may not be today  
true love will find a way  
just save a space for me
