

# Tindersticks, I Was Your Man

So, you wish I was your man, and I'd understand  
So, you wish I was your man, and I'd understand  
Not a surface thing, we could meet down inside  
Not a surface thing, we could meet way down inside  
You've got a smile that never reaches your eyes  
You want to try to do something right  
So, take me home tonight  
Turn out the light  
You're just alone in the dark  
So, you wish I was your man, in my consciousness you ran  
In my eyes, you swam -- nothing's too much trouble for you  
So, you wish I was your man, and I'd understand  
So, you wish I was your man, and I'd understand you  
You've got a smile that never reaches your eyes  
You want to try to do something right  
So, take me home tonight  
Turn out the light  
You're just alone in the dark
